

Restoring Habitat for California's Sensitive Wildlife Species: Lessons on Integrating Wildlife and Restoration Ecology

A one-day Symposium organized by the California Society for Ecological Restoration (SERCAL)
and the Western Wildlife Society (Sacramento/Shasta Chapter)

19 June 2008 at Davis Veterans Memorial Center, 203 E. 14th St., in Davis

The Symposium — 8:30am–4:30pm

Enjoy a day of presentations and panel discussions with leading restoration and wildlife ecologists focused on design approaches and lessons learned in the restoration of wetland and riparian habitats for a diversity of California's sensitive wildlife species.

Sessions will include the following topics:

Freshwater wetland/aquatic habitat restoration for sensitive species including:

- Waterfowl
- Giant garter snake
- California red-legged frog
- California tiger salamander

Tidal wetland restoration for wildlife in the San Francisco Bay and Delta

Riparian habitat restoration for sensitive species including:

- Riparian bird communities
- Yellow-billed cuckoo

To Register:

Pre-registration is encouraged. To pre-register please mail this completed form with a check (payable to SERCAL) to Max Busnardo, at the address shown below.

- Registration before May 15 = \$60
- Registration before June 15 = \$70
- Registration at the door = \$80

Lunch, coffee and tea will be provided at the symposium and are included in the registration fee.

For further information, please contact Max Busnardo at (408) 458-3222 or mbusnardo@harveyecology.com

Mail this completed form with check to:
